### READ THE ADVERTISEMENTS

Municipal District of Cereal No. 242  
NOTICE OF IMPOUNDMENT

Seven head of horses, rising three years old, were impounded in the Municipal Pound kept by J. McKenzie, W-22-28-4-4, on June 10, 1926 and will be offered for sale on June 24th, 1926. For description of these horses see J. McKenzie, or notice of Sale in Oyen Post Office.

### Capt. Shaw Addresses Meeting

Capt. J. T. Shaw, who was billed to address a meeting in Oyen last Saturday, was only able to give a brief talk before leaving for Empress. George Campbell, liberal candidate for this constituency, and C. J. Ford, of Calgary addressed the meeting which was well attended.

### District Gets Another Rain

A nice rain fell for about three hours last Friday (between 11.30 and 2 p.m.). Centred on Oyen the rainfall recorded on Mr. Miller's gauge was .44 inches. This amount gradually diminished to the south, and was somewhat heavier to the north.

### Funeral of the Late

Mrs. H. R. Chapin

The funeral of the late Mrs. Edith May Chapin, who died on Saturday, June 12, took place in Oyen last Monday.

Service was conducted in the United Church by Rev. C. R. Corcoran, assisted by Rev. Thomas Taylor of Compeer, before a large and sorrowing congregation, at 2 o'clock in the afternoon. The Church was beautifully decorated with plants and flowers and a profusion of floral tributes, sent by friends, were arranged about the casket. Each minister paid tribute to the character of the departed, and gave comfort to the father left bereaved for his two children and baby daughter. A solo, "My Task," was beautifully rendered by Mrs. Thomas Thompson.

Interment followed at Oyen Cemetery.

The late Mrs. Edith May Chapin, died in her 29th year. Soon after her marriage to Mr. H. R. Chapin, which took place in Toronto July 12, 1920, Mr. and Mrs. Chapin, moved to Neelin, Man., where they resided until January of the following year. From Neelin they moved to Vibank, Sask., for six months, then moved in September, 1922, to Compeer, Alta., where they continued to reside till February of the present year, when they came to Oyen. Mrs. Chapin was survived by her parents, Mr. and Mrs. A. H. Rickets, of 58 Glamorgan Street, S.W. 1, London, and by sisters, her husband and three children, Doris, age 4, Russell, Franklin, age 1, and a baby daughter, age 9 days.

The following friends acted as pallbearers: Mr. H. E. Barrick, Mr. C. E. Beirns, and Mr. W. A. Wilkie, of Compeer; and Mr. S. A. Miller, Mr. C. L. Dunford and Mr. R. E. Gillespie, of Oyen.

Besides that of the husband, beautiful floral tributes were sent by the local bank staff, The Bank of Toronto (Western Branches Office), Compeer Citizens, Compeer Ladies Aid, Mr. Jack Robertson, Compeer Oyen Baseball Club, United Church of Canada, Oyen: All Saints' Church; Mr. and Mrs. G. A. Morrison; Mr. and Mrs. E. P. Barbour; Mr. and Mrs. S. A. Miller; Mr. and Mrs. C. L. Dunford; Mr. and Mrs. R. E. Gillespie; Messrs. Kerr and May; Elizabeth and Margaret Taylor and Julia E. Barrick of Compeer.

Besides the large number of Oyen citizens in attendance at the service friends were present as follows:

From Compeer: Mr. and Mrs. H. E. Barrick, Mrs. C. F. Chesterman, Mr. and Mrs. Gus Kruschel and family, Rev. and Mrs. Thomas Taylor and daughter Margaret, Mr. and Mrs. Howard Colwell and family, Mrs. Cohen and daughter Miss Nina Cohen, Mr. C. E. Beirns and Mr. W. A. Wilkie.

From Lovrina: Dr. and Mrs. M. H. W. Frizzell and Mr. and Mrs. Albert G. Heisz.

From Senlac, Sask: Mrs. Thomas Pavely, Mr. Herbert C. Chapin, (brother of Mrs. H. R. Chapin) and Mr. William Tindle.

The sympathy of the entire community goes out to Mr. Chapin in his sad bereavement.

The Oyen News.

### Letter to Editor

Editor, Oyen News:

Dear Sir:

As a farmer, a Canadian and a man who has taken a daily paper both in Canada and the United States for more than twenty-five years, reading both sides of the political question, I beg space in your paper to voice my reasons why I cannot vote in favor of the Progressive party at the coming Provincial election.

I will be as brief as I can without neglecting to cover the important parts of the question.

To commence, we farmers in the U.F.A. in particular found fault with the previous Liberal government because they were piling up too much debt, and spending too much money foolishly, we thought, by putting in a farmers government, a hard time government, that our Provincial debt would be cut down, our taxes reduced, and we would be able to live a little better until such times as we would be favored with better crops and better times in Alberta.

Instead of our Provincial debt being reduced what do we find? we find our debts increasing in leaps and bounds, an increase of over twenty-four million dollars in the past five years, we find our pockets empty and conditions in general worse than they were five years ago.

What have they done for us? we asked for protection against the mortgage companies during two bad years, a protection that every farmer's land merchant is entitled to at times, what did they do for us? They did not have the ability to know what to do for us, so they allowed the king of the U.F.A. to dictate to them. I am a little bit reluctant to call him king because it is an insult to the kings of the present day, who are nothing more than constitutional presidents, but W. H. Woods is an autocratic king. A man that dictates to our government, and they swallow his dictates like a turkey would a warm mash, he told them to draw a line around us and declare us the dry belt and so doing they reduced the value of our land and property to a mere nothing. It shows that their hearts may be in the right place but their heads are surely wrong. In this locality there are quite a few farmers that have made good and I myself have had an average of twenty-two bushels of wheat to the acre over a series of six years.

I ask the farmers of Alberta, how can they vote for a government that shoves us into a state of misery? A government that had such little confidence in the ability of Mr. Brownlee when he was Attorney General of this Province that they turned over to Mr. McGillivray and Company more than twenty-thousand dollars for transacting legal business.

The present Government cannot even take credit for organizing the "Wheat Pool", we have got to give credit to the Calgary Herald. What we asked our U.F.A. government to form a wheat pool and be quick about it as the time was short, what did they do? Under the dictatorship of "King Woods", Mr. Brownlee started on a pleasure trip to California, to spend hundreds of dollars of

## THE ECONOMIC NEED OF CANADA IS MORE PEOPLE

Toronto.—Canada's economic need is for more people. We need more producers and more consumers. The policies which give us both are the policies which produce prosperity, and prosperity will give us national unity. If we can have widespread prosperity, we shall have little of the need for national unity or national harmony. These were the closing words of Hon. Sir Thomas White, former Dominion minister of finance, in an address delivered at the closing session of the annual meeting of the Canadian Manufacturers' Association here.

Sir Thomas declared that the policies necessary for prosperity were the policies which would develop the resources of Canada. Prosperity had for Canada a much greater significance than the mere making of money. "We must, even if it involves some sacrifice to us, provide in Canada the diversified industries and occupations which will take up that part of our population which desires to engage in callings other than its primary industries. We should do everything in our power to promote agriculture, mining, lumbering, fisheries, but we should also do everything in our power to promote industrial enterprise," he said.

Sir James Atkins, lieutenant-governor of Manitoba, declared that the error of Manitoba was a strong appeal for Canadian unity. In behalf of the people provinces he begged that sympathy be shown by the rest of Canada. "If any of our provinces are weak, I beg of you, gentlemen, to consider them in a spirit of fairness and assistance in order to make the whole body of Canada healthy and strong," he said. His honor, Col. Harry Cockshutt, lieutenant-governor of Ontario, paid a tribute to the remarkable development of the Canadian west in the past quarter century. "Today we find a prosperous area west with a population of 16,400,000, and a population of 1,800,000 who produced in 1921 \$24,000,000 and whose estimated total wealth to-day is eight billions. These figures speak for themselves and serve to give us courage to face the future with a strong heart."

### Hauling Gravel On Hudson's Bay Line

Two Trains Distributing It Along Right of Way.  
The Pas, Man.—A steam shovel has started operation on the Hudson's Bay Railway.

It is located at a gravel pit about five miles south of the town. This pit was recently opened by the Canadian National Railway, which is taking steps to acquire the land adjoining, which contains a large quantity of gravel. Two trains are working out of this pit, distributing gravel along the right of way. It is expected that another shovel will be put in commission very shortly.

Lloyd George To Visit Russia.  
London.—Former Prime Minister David Lloyd George is said to have decided to accept the invitation of the soviet to visit Russia this summer, to see what progress the country has made. Lloyd George already is convinced that the Russian government is not as bad as it is painted and will advocate closer relations with it.

Strike Is Settled.  
Oslo, Norway.—The strike of 20,000 engineers and miners which began last April has been ended by the acceptance of mediation on the part of the employers and workers. The employers insisted upon the 17 per cent. reduction in wages based on the reduced cost of living.

Sentenced to Hang.  
Winnipeg.—Sentence of death was passed on Daniel Procter for the murder of Annie Carden, an old-time sweetheart, in Winnipeg, last May. The execution was fixed for August 25. Procter was unmoved when sentence was pronounced.

Economic Commission.  
Berlin.—An economic commission is to investigate Germany's capacity for production in all lines and her marketing facilities at home and abroad. The new body will begin its investigations immediately.

Negotiations Completed.  
Liverpool.—It is understood that the negotiations for the sale of the Star Line have been completed, excepting minor details, and all arrangements are being made to transfer the line to British interests early in July.

## Killed By Senate

Old Age Pension Bill Defeated In Upper Chamber.  
Ottawa, Ont.—The senate threw out the old age pension bill by a vote of 46 to 21.

The defeat of the bill came on the second reading, which had been moved by Senator Dandurand, right-wing leader. In the vote, Senator Robertson, former minister of labor, was the only conservative to support the bill. Sir Allen Aylesworth, Senator J. J. Hughes, and Senator Turfitt, all of the government side of the house, voted with the Conservatives against the bill.

Senator W. H. Ross, Opposition leader, said that he believed the government had no constitutional right to invade provincial jurisdiction over such matters as old age pensions.

The bill constituted a discrimination against the maritime provinces because they were unable to participate in the financial proposals of the bill. Senator Belmont said the bill was unfair to deprive some provinces of the advantage of the scheme because they could not take up.

Senator Beaudin said Quebec opposed the bill.

Senator J. D. Held said that only one out of the nine provinces had expressed a willingness to participate in the scheme. It should have been decided by a conference of premiers before introduction.

Senator Dandurand, Government leader, in moving second reading of the bill, urged that the measure of relief for poor working people.

### Popularity Of Lord Willingdon

Canadians Resident in London Are Pleased With Appointment.  
London.—Canadians in London warmly welcome the appointment of Viscount Willingdon as governor-general of the Dominion of Canada in succession to Baron Byng.

Here, Peter Jarvis, Canadian high commissioner in London, in a statement testified to the gratification with which the news of the appointment had been received in Canada. Right Hon. Sir James Greenwood, Conservative member of the house for Walsingham East and former chief secretary for Ireland, was equally complimentary about a hearty welcome awaiting Lord Willingdon on taking up residence at Rideau Hall, Ottawa.

Decided Increase Shown In 1925 Over Former Years.  
Ottawa.—Canadian production of registered seed of the principal field crops in 1925 shows a material increase over former years according to figures just released by Peter Stewart, secretary of the Canadian Seed Growers' Association. Wheat, barley and sweet clover made the greatest gains, the increase over the previous year being 40,000 bushels, 3,000 bushels and 7,000 bushels respectively.

There is a growing demand from abroad for samples and information for Canadian registered seed, which seems to point to possibilities for a flourishing export trade within the near future.

Murdered in China.  
Shanghai, China.—Mrs. W. E. Sibley, wife of a Canadian Methodist missionary at Jangshien, Szechuan province, was murdered in the streets of Chengtu, in the same province, according to a message from the latter place.

Motor Van Kills British General.  
London.—Brigadier-General Edward A. Plunkett, veteran of many wars, was knocked down by a motor van while crossing Piccadilly. He died on the way to the hospital.

When the Canadian Pacific special mail train came to a stop at the C.P.R. depot at Vancouver, at exactly 5:23 p.m. Thursday, May 6, after its journey across Canada from Quebec, it established a record which, according to the officials of the company, will stand for some time. The trip was made from Quebec in three and a third days, the train from Winnipeg taking 23 hours and 4 minutes, 24 hours faster than the through passenger train, and three hours faster than the speedy silk train, the fastest train crossing the continent.

Its arrival at Vancouver with the Old Country mails for the Orient. The transfer of the mails to the boat took only twelve minutes. Indicating the responsiveness of the C.P.R., an executive of the company had agreed to get the mails to Vancouver by 7:00 p.m. on May 6. The train came in an hour ahead of time.

## Tariff Advisory Board

Manufacturers' Association Expresses Faith That Proper Stand Will Be Taken

Toronto.—Confidence that the new tariff advisory board would do its duty with the problems which it will be called upon to face, keeping in mind the broad Canadian attitude in its discussions, was expressed by various speakers at the annual meeting of the Canadian Manufacturers' Association.

Said: "I think, gentlemen, that when you take your cases to that committee, you will be well received. I have all faith that as Canadians they will take a proper stand."

Regarding the rest of the matter, the speaker said that the committee would be the most important character. He believed the customs act would ever be properly administered under his competent men were secured by being assigned salaries.

Hon. James Bureux, late minister of customs, endorsed the remark of Dr. Reid. He believed the present customs staff was equal to any in the government service but are underpaid and under-manned.

There was considerable discussion on the amendment to the tariff act which automobile parts not manufactured in Canada.

Senator Gordon thought that the duty should be maintained and these parts made here.

Senator Dandurand said that when they were manufactured in Canada the duty would be replaced.

Nearly Hundred Guests Present to King and Queen at Buckingham Palace

London.—Plumed, bejewelled and dressed in gorgeous court gowns of dazzling beauty, women of social and political prominence were presented to King George and Queen Mary at Buckingham Palace at the first of the season's royal courts.

The King and Queen entertained nine hundred guests, mostly drawn from official diplomatic circles, as is the custom for the first court. About a third of those attending were women, and a large number were ushered into the presence of royalty for the first time.

Valuation Of Elevators

Valuation of 451 Elevators in Saskatchewan to Be Made This Month.  
Winnipeg.—On application of H. H. Miller, representing Saskatchewan Pool Elevators Ltd., proceedings of the arbitration board valuing the elevators in connection with the proposed sale of the Saskatchewan Wheat Pool were suspended after two sessions. The date is to be fixed at Port Arthur and the arbitrators are returning home. It seems probable the third and final session of inquiry, namely, that dealing with valuation of 451 line elevators located in Saskatchewan will not be proceeded with before June 23.

Body Washed Ashore  
Windsor, Ont.—The body of Mrs. James Plipp, missing since the middle of the winter, with her husband and three children, who disappeared while driving in a sedan across Lake Erie from Pelee Island, was washed ashore at Sturgeon Bay, three miles from Leamington. The body was identified by Fred Galt, brother-in-law of Mrs. Plipp.

Given Life Membership  
St. John, N.B.—Life membership in the National Chapter of the Imperial Order Daughters of the Empire was conferred on the honorary president, Lady Bryn of Vimy, as a tribute to the wife of the former commander of the Canadian Corps, by the National Chapter in session here.

### Withdraws Motion On Egg Grading

Question Will Be Referred To Committee Of Agriculture  
Ottawa.—A motion introduced in the house by Hon. Hugh Guthrie (Conservative, South Wellington), which came into force April, 1924, imposed a hardship upon farmers engaged in egg production, was withdrawn after Hon. W. R. Motherwell, minister of agriculture, had agreed to refer the question to the committee of agriculture.

## SENATE ADOPTS AMENDMENTS TO CUSTOMS TARIFF

Ottawa.—The senate adopted the budget amendments to the customs tariff and the bill was given its third reading.

When these amendments were under discussion, Hon. J. D. Held, former minister of customs, said from his experience the customs staff on the whole was a good organization. He never could understand how the service minister believed the customs act would ever be properly administered under his competent men were secured by being assigned salaries.

Hon. James Bureux, late minister of customs, endorsed the remark of Dr. Reid. He believed the present customs staff was equal to any in the government service but are underpaid and under-manned.

There was considerable discussion on the amendment to the tariff act which automobile parts not manufactured in Canada.

Senator Gordon thought that the duty should be maintained and these parts made here.

Senator Dandurand said that when they were manufactured in Canada the duty would be replaced.

### Hold Royal Court

Nearly Hundred Guests Present to King and Queen at Buckingham Palace

London.—Plumed, bejewelled and dressed in gorgeous court gowns of dazzling beauty, women of social and political prominence were presented to King George and Queen Mary at Buckingham Palace at the first of the season's royal courts.

The King and Queen entertained nine hundred guests, mostly drawn from official diplomatic circles, as is the custom for the first court. About a third of those attending were women, and a large number were ushered into the presence of royalty for the first time.

Valuation Of Elevators

Valuation of 451 Elevators in Saskatchewan to Be Made This Month.

Indicating the responsiveness of the C.P.R., an executive of the company had agreed to get the mails to Vancouver by 7:00 p.m. on May 6. The train came in an hour ahead of time.

## May Organize Wheat Pool For Ontario

Will Likely Work in Close Co-operation With the Western Pools.  
Toronto.—That the United Farmers' Cooperative Company Limited, undoubtedly will take the initiative in organizing an Ontario wheat pool to work in close co-operation with the western pools, was indicated by H. A. Gilroy, president of the United Farmers' Cooperative Co., Ltd., in a statement here.

Colin A. Burnell, Winnipeg, secretary of the central selling agency of the western pools and president of the Manitoba Wheat Pool, has been in close touch with executive members of the U.F.O. organizations during the past week, and if the cooperative company decides to proceed with the proposition, it is expected Mr. Burnell will be called upon to assist in the necessary organization.

Mr. Gilroy expressed confidence in the feasibility of a wheat pool for Ontario, but the matter will be threshed out thoroughly at the next board meeting of the United Farmers' Cooperative Company, Ltd., this month.

### B.C. Sawmill Burned

Big Blaze Throws Two Hundred Men Out of Work  
Meritt, B.C.—Two hundred men are out of work in this town in Nicola Valley in the interior of British Columbia as the result of a fire which destroyed the sawmill of the Nicola Pine Forest Company, one of the largest sawmills in the province, with a resultant loss estimated at \$200,000.

Several of the employees were rescued from the burning building only with great difficulty and the whole town for a time was threatened by the flames which were carried for long distances by a heavy wind.

Heroic efforts of the fire fighters resulted in the planing mill, drying kiln and millions of feet of lumber in the adjacent yard to the sawmill being saved, despite the fact that the wind was blowing in that direction.

### Want Germany In League

Leaders Anxious To Get Membership In League.  
Geneva.—To get Germany into the League of Nations, the British cabinet is determined to make the League of Nations a more effective organization.

If necessary, a special session of the council will be convened during the summer in order to render possible any repetition of the March 1920 session when the British cabinet was obliged to return to Berlin without being elected to membership.

It is expected that the British cabinet will continue their present policy, which is termed here as "walking," they probably will not be able to obtain the powers, work of re-organizing the council proceeding without them.

## GOOD SUPPORT FOR A NATIONAL FUEL POLICY

Ottawa.—Establishment of coking plants in large centres of population and the adoption of the Dominion measures which would enable Canada to make to be marketed in Central Canada were recommended by premiers and representatives of provincial governments who appeared before the special committee of the house investigating the Dominion's coal supply.

Premier Ferguson, of Ontario, said his province was willing to bear a fair share of the cost of the project of encouraging the coal industry in Western Canada, and in the Maritime Provinces. The use of Canadian coal in Central Canada, in place of the transportation of this commodity, would be observed, tend to keep money within Canada.

Hon. W. R. Craig, attorney-general of Manitoba, and H. C. D. Richards, New Brunswick minister of mines, supported the recommendations to provide fuel from Canadian mines instead of importing it.

Mr. Craig said that the experience of Manitoba with Alberta coal had been highly satisfactory. Manitoba was prepared to do its share in supporting a national fuel policy.

Mr. Craig presented a resolution passed at the present conference here of provincial premiers, which expressed the opinion that the Government of Canada should take immediate steps to ensure the establishment of coking plants in the large centres of population, and to adopt such other measures by the Dominion as will enable Canadian coals to be marketed in the central parts of Canada.

Canadian Immigration To U.S.  
Washington.—Quota limitations on immigration from North, Central and South America on the same basis as now applicable to European countries would be imposed under a bill introduced by Chairman Borah, of the senate foreign relations committee.

## GRAIN SHIPPING BILL FINALLY PASSES HOUSE

Ottawa.—The Campbell bill to give grain shippers the right to specify the terminals, wharves to which their grain should be shipped, passed final stages of the House of Commons after an hour's discussion.

The bill was introduced here by J. G. Ross (Liberal, Moose Jaw) which included Moose Jaw in the list of order points.

Hon. J. A. Robb announced that after consultation with the board of grain commissioners the government had decided to make Moose Jaw a grain inspection point.

During the discussion, W. W. Kennedy (Conservative, Winnipeg South) said that members of the wheat pool put forward the claim that they, the grain growers, had the right to have their grain into country warehouses and ship to the elevator grain direct to their own pool terminals.

He admitted that they had the right, but the question arose as to how they could accomplish this purpose.

Members of the wheat pool gathered more than 100,000 bushels of wheat in the country. Consequently they were dependent upon the storage facilities controlled by the private elevator companies in order to accomplish the grain which they collected.

But if they stored their grain in country warehouses, they would be the owners of these elevators would ship the grain to the private terminals.

Hon. Robert Rogers (Conservative, Winnipeg South), expressed the opinion that the sponsors of the bill would come back to parliament a few years ago and ask that it be repealed. It would prove to be a failure, he said, in the interests of Western Canada.

### Suggest Co-operation To Stop Smuggling

Matter Discussed at Conference Between Canadian and U.S. Officials.  
Ottawa.—Co-operation between the Canadian and United States Governments in regard to smuggling was under discussion at a conference here between Hon. C. A. Andrew, minister of customs for Canada, and Harry C. Whitfield, collector of customs for Vermont, and Hon. G. H. Boudreau, minister of customs for Canada. No announcement of the actual matters discussed was made.

Would Cut Tax On Wines  
Winnipeg.—Representatives of provincial premiers, and other representatives of the several provinces, passed a resolution asking the Federal government to cut or reduce the tax on wines and spirits made in Canada and sold to provincial government.

It also asked the federal government to cut or reduce the tax on half the tax on wines and spirits imported by these agencies.

World's Record For Feeding  
Winnipeg.—Feeding operations, on a scale said to constitute a world's record, were carried out at the farm of H. J. Holter, Spring Centre, Alberta, on June 7, when 360 horses, 11 cutters and 29 seed drills were used by neighbors in the sowing of 200 acres. Mrs. Holter's husband died recently.

Whittemore To Hang  
Baltimore, Md.—Richard Reese Whittemore, who killed Robert M. Holman in escape from the penitentiary in February, 1925, is to hang. This was the sentence pronounced upon him by Criminal Court Judge William O'Connell. Sentence was pronounced by Judge O'Connell behind locked doors.

Amundsen to Visit Vancouver  
Vancouver.—Raald Amundsen, leader of the successful trip across the North Pole from Spitzbergen to Norway, will be a visitor here before the end of June. Word to this effect has been received by C. J. Bloke, Norwegian consul here, in reply to an invitation tendered by Mayor L. D. Taylor.

Austrian Situation Excellent  
Geneva.—The sub-committee for Austria on the council of the League of Nations, in adopting such other measures by the Dominion as will enable Canadian coals to be marketed in the central parts of Canada.

Canadian Immigration To U.S.  
Washington.—Quota limitations on immigration from North, Central and South America on the same basis as now applicable to European countries would be imposed under a bill introduced by Chairman Borah, of the senate foreign relations committee.

When the Canadian Pacific special mail train came to a stop at the C.P.R. depot at Vancouver, at exactly 5:23 p.m. Thursday, May 6, after its journey across Canada from Quebec, it established a record which, according to the officials of the company, will stand for some time. The trip was made from Quebec in three and a third days, the train from Winnipeg taking 23 hours and 4 minutes, 24 hours faster than the through passenger train, and three hours faster than the speedy silk train, the fastest train crossing the continent.

## Hay Fever

This Trouble Is Becoming More Common In Prairie Provinces

June is the time of year when the first attack of hay fever occurs. Hay fever is caused by wind-blown pollen, grasses, ragweeds and pigweeds. The three wind-blown pollen in greatest abundance and hence the principal causes of hay fever. Other pollen may cause hay fever, but they are not so common and not so readily blown. Ragweeds and pigweeds produce thousands of pollen like corn tassels at the top, and the grasses are so common and so early that they are the principal cause of early hay fever, and the ragweeds and pigweeds, the cause of late or autumn hay fever. The first frost of autumn usually gives hay fever patients immediate relief because it freezes the pollen.

According to Prof. V. W. Jackson, Dept. of Botany, Man. Agric. College, the extended area of cultivation and the concomitant increase in grass and weeds has made hay fever a more common illness than formerly, and the present movement of the population towards suburban districts has made a noticeable increase in hay fever. Perhaps 10 per cent of the people are sensitive to certain pollen, such as this pollen in pollen grains, and thus polluted by them. Nature tries to throw off the pollen by sneezing and mucous excretion; but at the same time is continually renewed by the wind-blown pollen. Nature's effort is a continuous annoyance known as hay fever.

Relief may be obtained in three ways: (1) By getting away from the pollen; (2) by using sprays of salinity; (3) by catenation treatment with pollen extracts to produce a relative immunity.

To get away from the cause one must be at least two miles from hay or grasses, ragweeds or pigweeds, and even prairie grass and wind-blown pollen, such as pine, poplar, oaks and elm, which sometimes cause an early hay fever. The pollen is blown in June and July, and the ragweeds and pigweeds in August. It is impossible to escape on the prairie where these things are so common. A long journey or a vacation in the Lake of the Woods would give relief. The centres of large cities seem to be comparatively free from hay fever pollen.

Traveling in high winds also aggravates this trouble. Hay fever seems to be more common in areas of wind-blown pollen, but these may be more irritating than hay fever, and a fine wind might give better protection from wind-blown pollen. Intense heat or light aggravates the attack, and the patient should rest in cool, dark rooms and use colored glasses or bright light irritates the eyes.

Nasal spray might be used to nullify the irritation and give some immediate relief. Water, salted with solutions of bromine, quinine, or iron compound or adrenalin solution are frequently used. A weak solution of Fluor's balsam in a pint of boiling water and inhale the fumes will give temporary relief.

## Armistice Car Without Home

Attempts to Establish it as Official Monument Are Unsuccessful

The historic 1914 Pullman car in which Marshal Voth and the German plenipotentiaries signed the armistice in the Forest of Compiègne has been denied a home after many unsuccessful attempts within the last seven years properly to establish the car as an official monument of the war. The municipality of Compiègne recently drew up plans for a permanent home in which to maintain the car as a relic of the war, and its estimated cost was 150,000 francs. Unable to pay all of this, the town asked the state for 100,000 francs, only to be refused.

The minister of war replied that the state could not assume any expense in this connection. Since the construction of the famous car is beyond the modest power of this little town, the municipal council has just decided that the project must be abandoned.

## Sheep Ranchers Come To Canada

Several sheep ranchers from the United States have recently made extensive purchases of land in the interior of British Columbia. Sheep raising on a large scale will be conducted in territory previously considered unsuitable only to the cattle industry.

## The Sweetest Words

A group of newspaper writers were discussing what are the three sweetest words in the English language. One of them suggested "Home, Sweet Home." Another suggested, "I Love You." A third commented, "Good-bye." And with unanimous approval—New York Evening World.

Swedish is used in Sweden for making packing.

W. N. U. 1632

## Manitoba Bees Are Busy

Honey Production Shows Wonderful Development In Few Years

Wonderful growth in the production of honey in Manitoba is reported, not only in quantity but in quality as well. Honey production has for several years been a profitable industry in Ontario and Quebec, but recent years have seen a phenomenal development also in the three prairie provinces. In Manitoba, according to the department of agriculture, production has increased during the last five years from 207,000 pounds to 1,317,000 pounds, and further increase is confidently anticipated. In Saskatchewan and Alberta too, according to the Dominion apiculturist, they are now keenly alive to the possibilities in this direction, there being a steady increase in the number of beekeepers in these two provinces.

It is hardly an exaggeration to say that our honey resources are practically inexhaustible. From coast to coast there is an abundance of nectar secreting flowers and plants whose ambrosial gift is wasted because there are not enough bees to harvest it. In order to further stimulate bee culture and beekeeping, the Dominion experimental farms system has established some twenty or more experimental apiaries throughout the country.

## Finds Garden Sufficient

Real Gardener Says There and Bothera No One

Gardeners are like poets, in that they are impractical followers who value their souls above their stomachs, but that need trouble no one, because a man who owns a garden usually stays in it and bothers nobody. The song is hackneyed and threadbare by repetition, yet it is a time when ideals are wandering bewildered through a maze of billboards, gas station, dance halls and dog carts there is still some occasion to say it loudly, out back among the sweet pea vines and the geraniums—"Thank God for a garden."—Providence Journal.

In a western city there is a sign reading as follows: "Of 1,076 who died from effects of gas, 33 inhaled it, 21 put a blind match to it, 4,000 stepped on it."

Judge—Why did you kick this man?

Accused—Because he kicked me a mile!

## Americans In Western Canada

Recent Census Expected to Show Increase in Number of Americans Living Here

When the census of the three Canadian prairie provinces—Manitoba, Saskatchewan and Alberta—which is now being taken is completed, it will show that there are over 250,000 American-born residents here.

According to the Dominion census taken in 1921, the three prairie provinces had a population of 1,246,053, of whom 203,140 gave the United States as their birthplace. Since then official records show that over 42,000 Americans have taken up residence between Winnipeg and the Rocky Mountains.

To take the census of Manitoba, Saskatchewan and Alberta required the services of 2,500 enumerators. They covered an area of 753,317 square miles, which is equal in size to the combined area of ten of the largest states in the United States.

Though the census of the whole of Canada is only taken every ten years, a special act of the Canadian Federal Government requires a census of the prairie provinces to be taken every five years. This census, in addition to enumerating the population in detail, will embrace the fullest possible particulars concerning agriculture, the basic industry of the three provinces and also of all Canada.

This year's census will make an appraisal of the 100,000,000 acres of farm lands awaiting settlement in the three prairie provinces, which are now valued on an average at \$15 to \$20 an acre.

## Willing To Oblige

Scotchman Would Grant Favor But There Were Conditions

Morris Harvey, one of the English principals in "The Merry Wives of Windsor," who is in the country, is a Scotchman. He is a man who is much more obliging than they are in England. Harvey has just taken a home in Jersey for the summer. Last Sunday he asked his neighbor, a Scotchman, for the use of his lawn mower for the afternoon. But he said and not take it off my lawn."—New York Evening World.

But few men are brave enough to allow a mind reader to expose their thoughts in the presence of friends.

## Claims Wrangled Island

Norfolk Trading Co. States They Purchased Rights From Stefansson

Carl Lomen, of Nome, Alaska, announced that the Lomen Reindeer and Trading Company of Nome, including himself and Ralph Lomen, his brother, had filed claim to Wrangel Island with the state department in Washington, D.C.

Any immediate action to substantiate the claim, which he would like to prove because Arctic aerial expeditions have been made, demonstrated the value of the island as an aviation station. It is impossible, stated Lomen. This is because Russia and the United States are without diplomatic relations.

Rights to the island, Lomen announced, were purchased by his company in May, 1921, from Vilhjalms Stefansson, Canadian explorer.

Stefansson organized an expedition of four men, led by Alan Crawford, of Toronto, that went to the island in 1921.

The island is 75 miles long and 25 miles wide, lying 110 miles north of Siberia and 260 west of Bering Sea.

## Reason For Old Custom

Primitive Man Originated Habit That Has Become Handshake

We have always been told that there is a reason for every rule in the books of etiquette.

Do you know why we shake hands?

In early days man lived alone for his woman back in the cave. He fought the wild animals and dragged home his lost alone. Men warred on one another for the most part. When primitive man was too weary to fight he would drop his club upon meeting another man in his path and hold out his empty hand to show that he was unarmed. And the extended hand wound into the handshake.

Today's form is a group that a person regarded in a group does not offer to shake hands. It is up to the members of the group to make him welcome by offering the hand, if they care to.

## Bought Napoleon's Cocked Hat

One of Napoleon's famous cocked hats has been sold at auction for 15,000 francs. The purchaser is the Prince of Monaco. The hat was brought from a campaign by the emperor's chief veterinary surgeon, Girard, as a souvenir.

## They're Off! The Crack Footballers

Here's the football team that represents England, just saying goodbye to the Old Country as they sail on the Canadian Pacific liner Empress of Scotland for Quebec. These boys are the star players from half a dozen of the best professional football teams in Great Britain who, having just completed their own season, are coming to show the people of Canada what football can be like. Among them are D. B. N. Jack, who kicked the winning goal for the Football Cup won this year by Bolton Wanderers, and Joe Smith, Captain of the winning team, who received the cup at the hands of King George. Another player, H. Barkan,

is from the First Division championship team, Huddersfield, Town, and some of the others are below the first rank.

They are going right across Canada over C.P.R. lines, from Montreal to Vancouver, and return, playing the best Canada has to put up against them. They started at Montreal with a game on October 1st, and they return to Montreal for the final game July 14. In between they play at Toronto, Fort William, Winnipeg, Regina, Lethbridge, Calgary, Vancouver, Nanaimo, Victoria, Edmonton, Saskatoon, Winnipeg, Timmins and Toronto. The last games will be against picked star teams representing Ontario and Eastern Canada.

Very fine games have been the rule so far in these games. Five thousand spectators were present at the first game, the visitors won 5-3 and similar crowds saw the games in Hamilton and Toronto. Favored with cold and therefore favorable weather at the outset of the tour the players were able to become acclimated before they struck the heat of a Canadian summer in the west. The result was a tour that not only gave Canadians a first-hand knowledge of a great game, played by experts, but also gave the traveling team a good time in a British Dominion new to the majority of them and encouraged the hope that these tours will be made a yearly affair in the future.

## Related to Both

An Irishman was seated in a train beside a pompous individual, who had his dog with him.

"Folks dog you have," said the Irishman. "What a fine mind is it!"

"A cross between an Irishman and an ape," said the man.

"Sure as it's related to both us!"—The Irishman.

"If a man marries a widow by the name of Elizabeth, with two small children, what does he get?"

"Give it up!"

"A cross-bred lizard with two runabouts."

## Perfect Drivers Are

The Greatest Menace

So Absolutely and Recklessly Right

That Other Drivers Fear Them

The mediocre automobile driver must have the traffic situation in his mind only says a traffic expert.

The inferior and the perfect driver are causing all the difficulties and are responsible for accidents and traffic jams.

It is not difficult to understand how the inferior driver causes accidents in his only says a traffic expert.

The "perfect" driver appears too perfect to be blamed.

The "perfect" driver never gets into an accident himself. He never isolates a traffic rule. He never isolates a traffic rule. He never isolates a traffic rule.

The "perfect" driver causes a chance to endanger other motorists.

## United States Has National Problem

Grave Danger of Food Famine Is Pointed Out

The American farmer's combined capital has increased to \$500,000,000 in five years, Frank O. Lowden, governor of Illinois and a presidential possibility, told the National Food School conference in Chicago. Agriculture must be considered a national problem, he declared.

He cited figures tending to show that this condition would obtain not only in the United States, but in every other country.

"We could not hope to receive agricultural imports from other countries when the situation reverses itself," he said, "and we had better be ready to consume more than we could produce."

Quoting from a department of agricultural publication, Lowden referred to 1923 as a better year for the farmer than any of the preceding four years. "Yet," he said, "a wage allowance of less than common labor receives in other industries, his net returns upon capital was 3.6 per cent, without deduction for depreciation of machinery or depletion of the soil."

Combined farmers' capital declined from \$27,000,000,000 in 1919 to \$22,000,000,000 in 1925, he said.

## Performing Animals Depend On Music

Plays Important Part In Success Of Their Act

Music plays a very important part in the success of the performances by animals. The illustration is given by the story of a performing goat. Spreading a carpet on the ground, the keeper placed four blocks of wood about six inches high at small distances apart, and on these the goat stepped, carefully setting each hoof on a block.

Having reached the end of the run, the man began to play an air, which was evidently liked by the goat, for he pricked up his ears and seemed to listen.

Without ceasing to play, the man lifted up each of the goat's feet in turn, and stepped under it another block. This he repeated until the goat was gradually lifted and the pillars of wood were four feet high.

The goat, patient animal all this time keeping its balance properly.

That the music was an important part of the performance is shown by the fact that when the keeper ceased playing the goat wavered and trembled, and directly the music went on his footing became steady again. When it finally stopped, the goat tottered, lost its balance, and jumped to the ground.

Mandarin Must Be Buried In China

Wealthy Merchant Died Four Years Ago In Vancouver and Body Still Unburied

For nearly four years the body of Loog Gee Wing, formerly one of Vancouver Chinatown's wealthy merchants, has lain at the undertaker's parlors of Nunn & Thomson awaiting burial. With the present state of political unrest in China it seems that Loog Gee Wing's body may have to wait many years before burial is possible.

Relatives fear that if the remains were forwarded to China they might be stolen by brigands enroute from the coast to the final resting place planned for them in the interior. But under no condition must the body of the old Chinaman be buried in Canada.

Loog Gee Wing was not of the ordinary merchant class. He was a mandarin, and according to the customs of the Chinese aristocracy, a mandarin must not be buried in a foreign land. This would be degradation. It is said, and would forever separate the spirit of the deceased from those of his ancestors.

Give Away Queen Mother's Possessions

Most of the contents of Queen Alexandra's private rooms at Marlborough House have been distributed to charitable institutions in accordance with the late Queen's wish. Her most cherished household objects, such as the bed at Sandringham and Marlborough House, have been sent to relatives and friends.

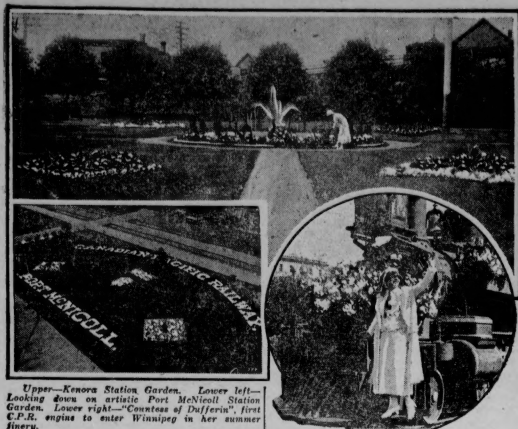

And Her Father Bit!

Her father, "Laurie" is too young, I tell you. You too young to even think of marriage. Do I understand that the ring you gave her is an engagement ring?"

Fredrick—"Oh, no, sir. It's just a toasting ring, sir."

## Beautifying the "Garden Railway"

Upper—Kenora Station Garden. Lower left—Looking down on artistic Port McNicoll Station Garden. Lower right—"Countess of Dufferin" first C.P.R. begins to enter Winnipeg in her summer finery.

Living up to its title as the "Garden Railway", thousands of trees, shrubs and perennials were shipped out over the whole Canadian Pacific Railway system early to May this year. These included willows, poplars, lilacs, spiraea, honeysuckle, syringa, weigela, carragana, hydrangea, and many others. The perennials include roses of the climber and rambling variety and of all shades of color, tiger lilies, Iceland poppies, aquilegia, dianthus, Sweet William, pyrethrum, delphinium.

Every year the Floral committee of the C.P.R. has the stupendous task of supplying the seeds, trees, shrubs and plants to thousands of stations from Saint John to Victoria. Bulbs are supplied and planted in the fall, rearing their jaunty heads with the melting of the snow in the spring.

The seeds are propagated under glass by experienced gardeners with a view to being transplanted when raised. In addition the committee sends out many thousands of seed packets to station agents and also for use in section foreman's gardens, bunk houses and around shops. Enormous quantities of bedding stock are also provided and among these are geraniums, canna, asters, pansies, salvia, petunias,

marigolds, atrichnum, phlox, Kochia, sinular, verbenas and alyssum.

Railway gardening was introduced in Canada by the Canadian Pacific Railway about thirty-five years ago. The majority of the gardens are laid out and looked after by employees of the system. Locomotive firemen, signal towermen, watchmen, bunkhouse attendants and others take a great interest in the gardens with the help of horticulturists. Every employee is alive to the importance and the pleasure of making the railway stations blossom. Each one of them is filled with a healthy sense of emulation and the desire to make his own garden the beauty spot of the railway. The men treat the whole plan as a hobby. All make the supreme yearly effort to win the general manager's cup, a worthy trophy emblematic of the best floral display along C.P.R. tracks.

But the prizes are not limited to this. Every general superintendent offers a prize for his own district, each superintendent gives one for his division and every roadmaster offers one for his sub-division.

During the Great War about 2,000 gardens were converted into vegetable-raising grounds and produced large quantities of food supplies for the men overseas.

## Bear Hunting In Rockies Best In Spring

In the Big Bend district of the Upper Columbia River in British Columbia lies the largest tract of grizzly bear hunting territory in the Dominion. On the two hundred mile stretch between Beaver-mouth and Revelstoke, both on the main line of the Canadian Pacific Railway, there are approximately thirty creeks, some large enough to be classed as rivers. Of these at least twelve are known to be the habitat of the grizzly while many of them have not heard the sound of a rifle in years.

This spring a systematic effort was made to take the hunting possibilities of this great district within the reach of prospective visitors in search of the thrill which only close quarters with Ursus Horribilis can produce. Through the co-operation of all the best known Rivermen on the Upper Columbia, trips can be made in comfort. Game and fish are plentiful and the scenery is sufficient to satisfy the desire of the most exacting mountaineer. At low water such as exists up to about the end of May it is possible to run in safety such well known waters as Surprise, Kimbasket, Gordon, Priest and Death Rapids, as well as the far-famed Canyon of the Columbia itself. This trip appeals to many as fully as the actual hunting.

Upper—A couple of hunters with some of their game. Lower left—On the war path. Lower right—Beaver Canyon, near Beaver-mouth, B. C.

As far as is known, no party of non-residents has ever made such a trip. The last pair of local hunters, who spent twenty-one days en route, brought in a bag of over fifteen bears, including several very large grizzlies and three live grizzly cubs, as well as happened several years ago when the present bag limit of three bears per sportsman was not in effect.

Edward G. Taylor, one of the best known game fishermen on the continent is authority for the statement of its lure as a fisherman's paradise. Just back from a trip to the Caine River, N.B., Mr. Taylor said salmon were steadily increasing in numbers and also in the province. He added that he had caught on this trip a salmon 42 inches long and weighing 24 lbs. In the autumn such a fish would likely weigh up to fifty pounds.

# Twelve Reasons For Electing Liberals

1. The Liberal Party stands for a more business-like administration of Alberta affairs. The present government is without business ministers, without business experience and has been without business success. It is a Class Government which is divorced from business entirely.
2. It stands for greater economy in administration. The present government has increased the debt of the province in five years by \$22,000,000 with nothing permanent to show for it. It has been more extravagant than any previous administration, or any other in Canada.
3. It stands for more progressive administration. The present government has nothing to show for its five years of office. It has passed no constructive legislation. It has delayed all the serious problems.
4. It stands for more active development of the unsettled areas. The present government has made no advance since it took office.
5. It stands for better development of agriculture. Capt. Shaw objects to bringing in the pools into politics, but his record as a member in Ottawa shows his enthusiasm for co-operative marketing, his vigor for cheaper transportation rates, his insistence on the removal of all the burdens which have been preventing development.
6. It stands for better educational facilities. The present government has been sacrificing education and burdening the department with useless educational fads.
7. It stands for better health organization and encouragement for hospitals. There has been no development in the health department since 1921.
8. It stands for honest and efficient administration. A fair distribution of the expenditure on public works.
9. It stands for honest distribution of the province into ridings.
10. It stands for justice to the returned man in the province.
11. The record of the Liberal party has been one of development and progress. It has to its credit:
  1. The settlement of the province.
  2. The organization into municipalities.
  3. The destruction of railway, lumber and telephone monopolies which threatened its destruction in early days.
  4. Former legislation such as co-operative elevator act, the farm machinery act, direct legislation.
  5. The beginning of labor legislation, which has remained unimproved. This includes the Factory act, the Workmen's Compensation act, and other similar legislation.
  6. The development of the vast Peace River area.
  7. The organization of schools, the creation of the Provincial University, the Institute of Technology and Art and the Farm Schools.
  8. Franchise for women and all legislation safeguarding the rights of women.
  9. Hospital legislation and all progressive health legislation.
  10. Soldier relief legislation.
12. It has at its head a man who has wide experience in legislation, who has at his back outstanding representatives, not of one class alone, but of all classes in the province—farmers, labor men, business men and professional men.

## General Farm Expenses

IN summer months current farm expenses often prove a worry and a burden to farmers whose whole mind should be centered on their crops and livestock.

This worry is unnecessary. By establishing connections with the Bank of Toronto, farmers with good security can readily secure a loan until such time as their crops are sold.

The nearest Bank of Toronto branch manager will be glad to talk with you to-day. Be assured that your relations with him will be as confidential and personal as with your lawyer.

**THE BANK OF TORONTO**

OYEN BRANCH  
17, R. Chapin, Manager

## Vote for Progress

The need of Alberta is for a government elected solely in the interests of the people of Alberta, not to gratify party ambitions, nor to supply jobs for party workers. A system that sets farmers against each other on opposite sides of the Legislature is not in the economic interest of the people of the province. Every other industry and profession in Alberta is rightly organized for its own social and economic welfare, and puts forward all the political pressure it possibly can.

Remember that happened in Alberta under the party system, the printing scandal, the railway muddle, the Athabasca and Peace River elections, the patronage distribution of the taxpayers' money for jobs and public works, etc.

Here are a few comparisons between the party system and the U.F.A. system of business government.

Land Titles Office Costs, 1921, \$241,000, 1925, \$156, 753; Election Costs, 1921, \$248,000, 1923, (Redcliffe) \$134,000, 1926 Election Estimate, \$150,000; Reductions in controllable expenditure, 1921, to 1926 inclusive, Alberta, 14 per cent., Saskatchewan, 12 per cent., Manitoba, 8 per cent., all other provinces increases. Cost of educating 320 agricultural students, 1921, \$191,000, 1925, 105,000 for 360 students.

A Vote for a U.F.A. Candidate is a Vote for Efficient and Impartial Administration.

Issued by the U.F.A. Publicity Committee, Calgary.

### Municipal District of Golden Centre

The 3rd meeting of Council of the M.D. of Golden Centre No. 272, was held at N.E. 13.30 5, W. 1th, on Saturday, June 5, 1926.

Members all present.

Council called to order by Reeve and business transacted as follows:

Minutes read and confirmed.

Correspondence read and disposed of.

C. N. Railways was instructed to make grade at crossing between sections 33 and 31 4, at least 22 feet wide and move fence.

Dept. of Public Works was requested to cancel old diversions surveyed at S. 1/2-15-31-4, N.E. 10 and N.W. 14-15-4, and N.E. 10 and S.E. 15-30-4.

The following applications for License were recommended to the Dept. of Municipal Affairs:

San Wong, Restaurant, Sedalia San Kong, Restaurant, New Brighton; Gordon Affleck, Pool Room, New Brighton.

Financial Statement to date was read and accepted.

The following accounts were paid: Oyen News, notices, 1.20; Cereal Recorder, notices, 4.00; Matt. Klassen, deficit at sale, 10.30; J. N. Olson, fees, 42.00; Capman Agencies Ltd., premium on Klassen bond, 5.00; Empire Lumber Co., poles for Blair pound, 3.60; Western Municipal News, forms, 4.35; Ralph Greene, salary April and May, 250.00, office expenses, 20.00; message and freight, 14.15, telephone tolls, 7.95, fee as Bailiff and Assessor, 21.00; G. A. Wald to apply on seed wheat for S.W. 24-29-6, 5.20; L. C. Michals, rent, 5.00; G. A. Blair, moving plant in ward No. 4, 1.00; mail and wire, 25.16; for and mileage, meetings, R. Cates, 12.00; B. Morris, 12.00; P. C. Hoard, 14.00; Ed. Stewart, 8.00; Frank Barker, 10.00 and B. W. Honnett, 6.40; Dr. J. Esler, medical officer, 35.00.

By law to make grant of \$100.00 to Oyen Agricultural Society, was read three times and adopted.

Council adjourned to meet on Saturday, July 3, 1926.

Ralph Greene, Sec. Treas.

Tourist traffic into Alberta mountain resorts has been very heavy for the month of May and the first part of June.

The perfect condition of the Calgary-Banff Highway, which was completed on a permanent highway by the provincial government last year, has been responsible for practically doubling the early season traffic from Banff and Lake Louise. The total number of cars passing through the Kananaskis divide during May was 4,080 compared with 2,181 the same month last year. A new record for three days was established when over Victoria Day week and 1,507 cars passed through the gate an increase of 712 cars over the previous three day record.

### Letter to Editor

The people's money when a telegram which the Calgary Herald sent would have brought Mr. Sapario here at a very small expense.

I wish to say further that the U.F.A. were very much dissatisfied with the Liberal Government at Ottawa, before the last Dominion election, national debt was increasing when it should have been decreasing, and times were bad in general in Canada. We sent down the Progressive party under the dictatorship of "King Woods" of Alberta, and "King Forke" of Manitoba, who thought they would make an effort to reduce the national debt of Canada,

Before you make that

## HOLIDAY TRIP

It will pay you to have your car tuned up. Save trouble on the road by having your car in A.1. shape before you start.

We can supply you with the necessary kit of tools, Folding Grip Racks, Spare tire and tube, Trouble Light, Can motor oil, Spark Plugs, Fan Belt, Spotlight.

It is a fine car, with a new motor, and is being sold at a very low price. It is a fine car, with a new motor, and is being sold at a very low price.

I say to you ladies and gentlemen, will not give the Conservative party a chance to put the affairs of this Province in order? thereby increasing the value of your property and put money in every one of our pockets.

Yours truly  
J. W. Cheavins, farmer
